MEDTRONIC 2016 GRI SUPPLEMENT: DISCLOSURE ON MANAGEMENT APPROACH

Page numbers correspond to the [2016 Integrated Performance Report](#)

The Global Reporting Initiative (GRI) G4 Guidelines are an internationally recognized standard for reporting on corporate social and environmental responsibility performance. Throughout this index, we include information and references to our FY2016 Integrated Performance Report, financial reports, and corporate governance guidelines. We have reported on GRI G4 aspects related to our 13 material issues.

We also include a Sustainability Accounting Standards Board (SASB) index for the Medical Equipment and Supplies Industry.

DISCLOSURE ON MANAGEMENT APPROACH TO MATERIAL ISSUES

ACCESS TO CARE	
Definition	The availability and affordability of our products, solutions, and therapies to people upon applicable regulatory approval. This includes our efforts to ensure that devices are accessible to patients who can benefit from them by working with health systems around the world to share technologies, services, therapies, resources, and expertise to help remove barriers to affordable treatment and management of disease.
Disclosure on Management Approach	<p>DMA-a</p> <p>The accessibility of our products and solutions is a critical imperative of our Mission and our business success. In FY2016, our revenue grew faster in emerging markets than in the developed world; making our products and therapies accessible to people everywhere is inherent in our growth strategy.</p> <p>We also view access to healthcare as a human rights issue, and believe that all people deserve the care they need. Our Mission implores us to contribute to human welfare, and our access strategy is a key element of this.</p> <p>Through business and philanthropic activities, we assess local, unmet healthcare needs, and tailor new or existing products, solutions, and therapies to overcome barriers to care.</p> <p>DMA-b</p> <p>We are guided by our Mission: To contribute to human welfare by application of biomedical engineering in the research, design, manufacture, and sale of instruments or appliances that alleviate pain, restore health, and extend life.</p> <p>Each business unit develops new products, therapies, and programs to reach more people with life-changing care. We also develop new programs, initiatives, and business activities designed to increase access to healthcare, such as the Global Health Initiative, the Patient Access Acceleration Program, and Medtronic Integrated Health Solutions.</p> <p>Our Value-based Healthcare strategy (page 21 of the 2016 Integrated Performance Report) leads us to develop new business models and payment systems, and is guided by the Value-based Healthcare Council.</p> <p>The Medtronic Foundation also contributes to our access strategy. Detailed information about management of our philanthropic programs are available at medtronic.com/us-en/about/foundation.html.</p> <p>DMA-c</p> <p>Efforts to increase access to healthcare are embedded in the day-to-day operations of our entire company. The board of directors and Executive Committee have primary responsibility for ensuring that we are maximizing our ability to reach patients who can benefit from our products and therapies. Each business unit and region reports to the board regularly.</p> <p>The Medtronic Foundation is led by a board of directors that includes Medtronic senior leaders from across the business units and regions as well as Omar Ishrak, chairman and CEO.</p>

ACCESS TO CARE

Boundaries (G4-20, G4-21)	Access, and our related impacts, are relevant for all our customers and patients as well as individuals who are not yet customers or patients who could benefit from our products or therapies.
Reference for More Information	See Access, pages 20–24, and Economic Contributions to Society, pages 10–18, for more information about how we provide access to healthcare to those who need it.
Related GRI Aspects	SO: Local Communities

PRODUCT QUALITY

Definition	Product quality reflects our commitment to ensuring quality and safety of our products in relation to all our stakeholders, including patients, physicians, hospital administrators, and Medtronic employees. It covers design, reliability, manufacturability, supplier quality, global compliance, post-market surveillance, complaint handling, and corrective action planning.
Disclosure on Management Approach	<p>DMA-a</p> <p>Our patient-centric approach requires us to put product quality and safety first. Product quality covers the full lifecycle of a product, from design through manufacture, use, and disposal. Quality and reliability are important to ensure the safety of all the patients who depend on our products and therapies for their health and well-being.</p> <p>DMA-b</p> <p>At Medtronic, product quality is everyone’s responsibility, and it is embedded into our culture. We require employees worldwide to obtain our Annual Quality Training certification. At the highest level, the Quality and Technology Committee of the board of directors is responsible for the oversight of Medtronic quality programs. In our business, the Global Quality department leads our product quality efforts. Our senior vice president of Global Quality is a member of the Executive Committee.</p> <p>Our Global Quality Strategy takes a patient-centered approach and ensures that we deliver consistent enterprise-wide quality. Specific processes and programs under our Global Quality Strategy include:</p> <ul style="list-style-type: none">▪ Design for Reliability and Manufacturability (DRM) that ensures quality in R&D▪ The Medtronic Operating System that ensures quality in production▪ The Global Quality Management System (QMS) that ensures that processes are simple, standard, scalable, and easy to comply with▪ The Quality Begins with Me program that empowers employees to promote excellence and show individual ownership and leadership of our quality approach <p>We also adhere to regulatory requirements, such as those of the U.S. FDA, and use the Medtronic Corporate-Wide Assessment for Regulatory Excellence (MCARE) to drive continual improvement in our regulatory compliance systems.</p> <p>DMA-c</p> <p>The Quality and Technology Committee of the board of directors monitors and evaluates our quality systems and processes on an annual basis. Full details of committee responsibilities are available in the committee charters on our Corporate Governance website.</p> <p>We apply Lean Six Sigma principles and use the MCARE to foster continual improvement in our quality systems.</p> <p>When we experience a quality problem with one of our products or therapies, we take all necessary actions to remedy the issue and identify opportunities for improvement to prevent future issues.</p>

PRODUCT QUALITY

Boundaries (G4-20, G4-21)	<p>Product quality is relevant across the entire product lifecycle. Within Medtronic, we manage product quality in R&D, manufacturing and production, sales, distribution, post-market surveillance, compliant handling, and corrective action planning.</p> <p>Product quality is relevant to external groups including customers — the medical professionals and patients who rely on our products and therapies.</p>
Reference for More Information	See Product Quality on pages 25–29 for more information about how we manage product quality across our business.
Related GRI Aspects	PR: Compliance PR: Customer Health and Safety PR: Product Labeling

PRODUCT STEWARDSHIP

Definition	Minimizing the lifecycle footprint of our products and packaging through product management and design innovation.
Disclosure on Management Approach	<p>DMA-a Driven by our Mission, we proactively manage environmental, health, and safety impacts from our products and packaging across our value chain to minimize our environmental impact.</p> <p>DMA-b We have identified product stewardship as an area of importance to our environmental impact. Our Environmental, Health, Safety, and Sustainability (EHS&S) program commits us to continually advance our product stewardship initiatives across the product lifecycle to meet customer needs and expectations. The goal for our newly established Sustainability Steering Committee also includes overseeing new product stewardship strategies.</p> <p>DMA-c In FY2016, Medtronic also introduced a new corporate EHS&S team, which oversees EHS standards and references for all businesses and regions. The corporate team leads three program offices: Environmental Management; Health, Safety, and Environmental Compliance; and Sustainability. Four regional EHS directors coordinate with EHS representatives throughout the company to support program management and ensure compliance with relevant regulations.</p>
Boundaries (G4-20, G4-21)	Product stewardship is relevant to our operations, our supply chain, and our customers.
Reference for More Information	See Product Stewardship, pages 30–31, for more information about how we manage our product stewardship.
Related GRI Aspects	EN: Materials EN: Products and Services

RESPONSIBLE SOURCING

Definition	Responsible sourcing is our practice of collaborating with our supply chain to develop long-term relationships that enhance product quality, worker rights, impact on local communities, and environmental protection.
Disclosure on Management Approach	<p>DMA-a</p> <p>A robust and reliable supply chain is critical to our business. It allows us to produce and deliver the medical devices and therapies on which our customers and millions of patients depend. Maintaining a responsible supply chain is essential to delivering the quality products that drive our company's success, and supports our social license to operate.</p> <p>DMA-b</p> <p>To drive responsible practices across our global supply chain, we expect all suppliers to operate ethically. This means following applicable laws related to governance, environmental responsibility, workplace health and safety, and human rights. More details are outlined in our approach to Supplier Quality.</p> <p>The Responsible Supply Management function establishes overall strategy and goals, prioritizing regulatory compliance, supplier diversity, and customer requirements.</p> <p>Our supplier product quality program is built on:</p> <ul style="list-style-type: none">▪ Our Supplier Audit and Excellence Manual, which every supplier must follow▪ Continuous improvement opportunities through training and development▪ Direct supplier participation in our Design, Reliability, and Manufacturability process, which assures standard product performance <p>Our Supplier Diversity team, Supplier Diversity Steering Committee, and executive management lead our Supplier Diversity Program. Our approach includes identifying suitable new diverse suppliers, raising internal awareness about supplier diversity, and joining initiatives that support supplier diversity beyond our business.</p> <p>DMA-c</p> <p>We provide suppliers with protocols, training, and support to ensure that regulatory and self-imposed quality standards are consistently met. Now that Medtronic and Covidien are fully integrated, we are working to align best practices from our legacy companies to enhance supply chain management, oversight, and performance.</p>
Boundaries (G4-20, G4-21)	Responsible sourcing is relevant to our suppliers, our patients, our customers, and our local communities.
Reference for More Information	See Responsible Sourcing, pages 32–34, for more information about how we oversee responsible sourcing for our products.

ETHICS IN SALES AND MARKETING

Definition

Ethics in sales and marketing is our commitment to ensuring responsible business practices in relation to the marketing, communication, and promotion of our products and services. This includes the monitoring and prevention of corruption, and conflicts of interest in sales-related interactions between our employees and healthcare personnel as well as compliance with global regulations.

Disclosure on Management Approach

DMA-a

Forming and maintaining the trust of customers, patients, industry partners, healthcare providers, investors, regulators, governments, and employees is critical to our success. Corrupt practices undermine this trust, our Mission-led commitment to integrity, and our business performance. Building trust also requires that we are transparent about our products, services, and practices at all times.

Our customers depend on our medical products, services, and therapies, and we must ensure that these deliverables are promoted factually, lawfully, and in a way that supports their approved use. Where required by law, such as in the United States, we disclose payments made by our business groups to physicians and teaching hospitals.

DMA-b

Medtronic follows several internal and external policies that help assure ethics in sales and marketing. These include:

[Code of Conduct](#)

[Global Business Conduct Standards Policy](#), including our [Anti-Corruption Policy](#) and [Global Conflicts of Interest Policy](#)

[Code of Ethics for Senior Financial Officers](#)

[Code of Business Conduct and Ethics for Members of the Board of Directors](#)

[Medtronic Donations](#)

Employees and board members must certify their understanding of the Code of Conduct.

Customer-facing employees must complete mandatory biennial anti-corruption training. We also monitor and conduct due diligence on global distributors before entering into contracts with them.

Individual Medtronic business units maintain internal review processes to ensure that accurate and appropriate product promotion occurs. Medtronic also follows internal policies that prohibit the unlawful promotion of products for off-label uses.

DMA-c

The Medtronic Office of Ethics and Compliance (OEC), and the chief ethics and compliance officer, oversee and implement all ethics- and compliance-related policies and programs. The chief ethics and compliance officer reports results periodically to the CEO, the Audit Committee, and at least annually to the board.

Medtronic employees are assessed on their ethical performance and encouraged to have ethics goals and objectives, which can be linked to discretionary incentives. We ask ethics and compliance-related questions during our annual employee engagement survey.

We report the results of our efforts annually in our Integrated Performance Report.

ETHICS IN SALES AND MARKETING

Boundaries (G4-20, G4-21)	<p>Ethics in sales and marketing, and its related impacts, is relevant to all Medtronic employees.</p> <p>Ethics in sales and marketing, and related impacts, is relevant to healthcare providers, industry partners, patients, distributors, investors, regulators, and governments.</p>
Reference for More Information	See Ethics in Sales and Marketing, pages 35–37, and Governance and Engagement, pages 39–41, for more information.

TRIAL DATA

Definition	Ethical and responsible conduct related to clinical trials, including transparency of data, ethics in research and development, and clinical data sharing.
Disclosure on Management Approach	<p>DMA-a The way that we collect and evaluate data is a critical component of our commitment to product quality and safety. Reliable and transparent information ensures that our clinical trials are conducted ethically and in alignment with the highest standards for data integrity and analysis. This, in turn, ensures that our products and therapies are safe and effective for the patients who depend on them.</p> <p>DMA-b We follow rigorous guidelines laid out in our Code of Conduct, Global Business Conduct Standards Policy, and Clinical Trials Principles. We also follow international guidelines for clinical research, where applicable, including the World Health Organization Good Clinical Practice (GCP) standards and ISO 14155:2011. Our Clinical Trials Registry details information about the purpose, eligibility requirements, locations, and status of each trial that we sponsor. Oversight for clinical trials also falls to the chief scientific, clinical, and regulatory officer who serves on the Executive Committee.</p> <p>In 2013, we were the first company in the medical industry to make all clinical trial data for a product publicly available, through a partnership with the Yale Open Data Project.</p> <p>DMA-c The Quality and Technology Committee of the board of directors monitors and evaluates our approach to research and development, and human and animal studies on an annual basis. Full details of committee responsibilities are available in the committee charters on our Corporate Governance website.</p> <p>We also work with external organizations and peers to improve and scale the way we collect data and evaluate products and therapies through clinical trials.</p>
Boundaries (G4-20, G4-21)	<p>Ethics, transparency, and reliability of trial data is relevant in our R&D operations, and the Regulatory and Clinical Affairs departments.</p> <p>Ethics, transparency, and reliability of trial data is relevant to external groups including customers — the medical professionals and patients who participate in our clinical trials and use our products once they reach market.</p>
Reference for More Information	See Product Quality, pages 25–29, for more information about how we manage ethics, transparency, and reliability of trial data.

STAKEHOLDER ENGAGEMENT

Definition	Engaging stakeholders throughout the healthcare system, including patients, physicians, hospital administrators, advocacy groups, governments, nonprofits and nongovernmental organizations, employees, suppliers, investors, shareholders, regulators, and the communities where we operate.
Disclosure on Management Approach	N/A
Boundaries (G4-20, G4-21)	N/A
Reference for More Information	See Governance and Engagement, pages 39–41, and Sustainability Risks and Opportunities, pages 7–9, for more information about how we engage with our stakeholders.
Related GRI Aspects	General Standard Disclosures

DEVICE SECURITY

Definition	Device security is our ability to keep customer products and therapies safe from the cyber-related threats and vulnerabilities that might compromise the intended use of a product or personal data related to the patient.
Disclosure on Management Approach	<p>DMA-a Device security as well as any potential threat to patient safety is taken very seriously at Medtronic. Medtronic works to make products safe and secure while still easy to use for the customers who depend on them. While we are not aware of any incident of unauthorized access or intrusion to an implanted device, device security is an area that is consistently addressed in the design process.</p> <p>DMA-b Medtronic has a formally approved companywide Global Product Security Policy that provides guidance on integrating security into product development. This policy is combined with a strong product security program. In FY2016, we leveraged a third-party expert to assess and address gaps in compliance with this policy across business units.</p> <p>Medtronic engages with external organizations and experts to maintain best practices. We also provide commentary and feedback on developing product security-related standards globally.</p> <p>DMA-c The Medtronic Global Privacy and Security Office and Security Steering Committee oversee our security framework, including relevant initiatives, policies, and programs.</p> <p>The Quality and Technology Committee of the board of directors monitors and evaluates our quality systems and processes on an annual basis. Full details of committee responsibilities are available in the committee charters on our Corporate Governance website.</p>
Boundaries (G4-20, G4-21)	<p>Device security is relevant across the entire product lifecycle. Within Medtronic, we manage product quality and security in R&D, manufacturing and production, sales, and distribution.</p> <p>Device security is relevant to external groups including the medical professionals and patients who rely on our products and therapies.</p>
Reference for More Information	See Ethics in Sales and Marketing, pages 35–37, Product Quality, pages 25–29, and the Medtronic Statement on Medical Device Security for more information.
Related GRI Aspects	PR: Customer Health and Safety PR: Customer Privacy

PHILANTHROPY

Definition	Philanthropic giving through Medtronic and Medtronic Foundation, corporate cash contributions, and product donations.
Disclosure on Management Approach	<p>DMA-a We believe it is important to give back to the communities where we operate, and where our people live and work as well as the communities all over the world where our patients, and potential patients, live.</p> <p>Through philanthropic activities, we contribute to our Mission of alleviating pain, restoring health, and extending lives.</p> <p>DMA-b Our philanthropic contributions are managed by the Medtronic Foundation and by business units. Our primary philanthropic programs are our global health programs for underserved populations and our more localized community grantmaking. We also make contributions related to disaster relief and patient recognition, and support employee giving through matching gifts and paid volunteer hours.</p> <p>We disclose all donations made to U.S. customers, or organizations affiliated with them, on our Charitable Donations Registry.</p> <p>Our corporate guidelines for charitable giving are outlined in our Charitable Donations Guidelines. They adhere both to our Global Business Conduct Policy and the medical technology industry's AdvaMed Code of Ethics.</p> <p>DMA-c Medtronic Foundation continually evaluates the impact of our philanthropic activities and emerging global healthcare needs across the continuum of care. More information on the continuum of care is available in Access, page 20. We also use periodic grant reports from grant recipients to evaluate the Medtronic Foundation's strategy and impact.</p> <p>Medtronic Foundation is led by a board of directors that includes Medtronic senior leaders from across the business units and regions as well as Omar Ishrak, chairman and CEO.</p>
Boundaries (G4-20, G4-21)	<p>Within Medtronic, many of our philanthropic activities apply to our employees, who are encouraged to give back to their communities through charitable contributions and volunteerism.</p> <p>Philanthropy is relevant outside of Medtronic to all the communities, or potential communities, that receive funds and/or product donations from Medtronic. We focus our community grantmaking on the 72 communities where we have the largest employee base, but give more broadly all over the world.</p>
Reference for More Information	See Economic Contributions to Society, pages 10–18, for more information about our approach to philanthropy.
Related GRI Aspects	SO: Local Communities EC: Indirect Economic Impact

POST-MARKET SURVEILLANCE

Definition	Ethical and responsible conduct related to post-market surveillance, including transparency of data, data collection, and clinical data sharing.
Disclosure on Management Approach	<p>DMA-a The way we collect and evaluate data once a product or therapy has reached the market is a critical component of our commitment to product quality and safety. It also plays a vital role in our move toward Value-based Healthcare with a focus on patient outcomes.</p> <p>Reliable and transparent information ensures that our post-market surveillance activities are conducted ethically and in alignment with the highest standards for data integrity and analysis. This, in turn, ensures that our products and therapies are safe and effective for the patients who depend on them. Post-market surveillance also helps us understand product performance in a real-world setting, measure performance against known complications, and identify potential problems early.</p> <p>DMA-b Our post-market surveillance is overseen by our chief scientific, clinical, and regulatory officer who serves on the Executive Committee.</p> <p>DMA-c The Quality and Technology Committee of the board of directors monitors and evaluates our approach to product quality and human and animal studies on an annual basis. Full details of committee responsibilities are available in the committee charters on our Corporate Governance website.</p> <p>We also work with external organizations and peers to improve and scale the way we collect data and evaluate products and therapies once they reach market.</p>
Boundaries (G4-20, G4-21)	<p>Ethics, transparency, and reliability of trial data is relevant to external groups such as our customers, including the medical professionals and patients who participate in our clinical trials and use our products once they reach market.</p> <p>Ethics, transparency, and reliability of post-market surveillance activities is relevant to external groups including customers — the medical professionals, patients, health systems, and insurers that participate in our surveillance activities and use our products.</p>
Reference for More Information	See Product Quality, pages 25–29, for more information about how we manage ethics, transparency, and reliability of clinical data in our post-market surveillance.
Related GRI Aspects	PR: Customer Health and Safety

CORPORATE GOVERNANCE

Definition	The policies, procedures, and practices that govern our company, including board structure, executive compensation, and accountability.
Disclosure on Management Approach	N/A
Boundaries (G4-20, G4-21)	N/A
Reference for More Information	See Governance and Engagement, pages 39–41, for more information about our corporate governance structure.
Related GRI Aspects	General Standard Disclosures

TALENT

Definition	Talent relates to the recruitment, retention, and development of Medtronic employees. This includes employee training, career management and promotion, and leadership development, in addition to compensation and benefits practices.
Disclosure on Management Approach	<p>DMA-a</p> <p>Our business is knowledge-based, and our success is dependent on attracting, developing, and retaining the top, diverse, and collaboratively minded talent. We support our growing workforce through global career development and training programs, career management opportunities, and competitive benefits and compensation practices. In FY2016, we launched our Career Development for All framework to assist employees in navigating their careers at Medtronic.</p> <p>Diversity, inclusion, and gender balance in the workforce are also considered priority areas for Medtronic.</p> <p>DMA-b</p> <p>Our Mission inspires us to recognize the personal worth of our employees by providing an employment framework that allows personal satisfaction in work accomplished, security, advancement opportunity, and means to share in the company's success. Our Human Resources department has established programs and policies to attract, develop, and retain a diverse set of talented employees. Internal and external-facing policies and programs include:</p> <p>Code of Conduct EEO Statement Voice Your Concern Policy Medtronic Benefits, Policies, and Services</p> <p>DMA-c</p> <p>The chief human resources officer serves on the Executive Committee and has primary responsibility for talent-related initiatives.</p> <p>The Medtronic Compensation Committee assists the board of directors in overseeing and evaluating employee benefit plans and stock programs.</p> <p>The Medtronic Voice Your Concern Line is a website and toll-free hotline operated by a third-party provider providing employees as well as anyone operating on behalf of Medtronic a place to report and voice concerns. The Office of Ethics and Compliance evaluates all reported concerns and escalates as necessary.</p> <p>Medtronic monitors the effectiveness of talent programs through internal feedback mechanisms including our Employee Engagement Survey, pulse surveys, and performance evaluations.</p>

TALENT

Boundaries (G4-20, G4-21)	Within Medtronic, our approach to talent is relevant to all current employees. Outside Medtronic, our approach to talent is relevant to all prospective employees and former employees.
Reference for More Information	See Employees, pages 46–51, Governance and Engagement, pages 39–41, and our Compensation Committee Charter website for more information about our approach to talent management.

FINANCIAL STRENGTH

Definition	Sustainable revenue generation and business growth through disciplined management of financial capital and resources.
Disclosure on Management Approach	<p>DMA-a Sound financial stewardship is at the core of everything we do. A financially strong Medtronic benefits the public and private sectors by providing new jobs, infrastructure investments, shareholder returns, and taxes. The financial strength of our business enables us to improve clinical outcomes, expand access to healthcare, and optimize healthcare cost and efficiency.</p> <p>DMA-b We apply rigorous financial discipline as we pursue three growth strategies:</p> <ol style="list-style-type: none">1. Therapy Innovation2. Globalization3. Economic Value <p>Our financial planning and decision making is driven by three baseline goals:</p> <ol style="list-style-type: none">1. Deliver consistent mid-single digit constant currency revenue growth.2. Achieve double-digit constant currency earnings per share (EPS) growth.3. Return a minimum of 50 percent of free cash flow to shareholders. <p>DMA-c Our financial performance is overseen by the Audit and Finance Committees of the board of directors.</p> <p>The Audit Committee is responsible for the integrity of our financial reporting, auditing, and compliance. The Finance Committee has oversight of our financial policies, strategies, and capital structure. Full details of committee responsibilities are available in the committee charters on our Corporate Governance website.</p> <p>Our shareholders, as owners of our company, have ultimate say in our financial management. Our Investor Relations team has ongoing contact with our shareholders, and we formally communicate with them and invite feedback through quarterly earnings calls and annual meetings.</p>

FINANCIAL STRENGTH

Boundaries
(G4-20, G4-21)

Financial strength is relevant across all of our operations in the way that we generate and use financial resources.

Financial strength is relevant outside our business in the way that we generate revenue from our customers, purchase goods and services from our suppliers, and support local communities, including research and development outlays; selling, general, and administrative expenses; and income taxes.

PROCUREMENT PRACTICES			
Disclosure on Management Approach	DMA: Responsible Sourcing		
G4-EC9: Proportion of spending on local suppliers at significant locations of operation.	Responsible Sourcing, pages 32–34	Percentage of the procurement budget used for significant locations of operation spent on suppliers local to that operation	The information is currently unavailable. At this time, we do not collect data on the percentage of the procurement budget used for significant locations of operation spent on suppliers local to that operation. Medtronic collects total procurement spend at significant locations of operation.
CATEGORY: ENVIRONMENTAL			
MATERIALS			
Disclosure on Management Approach	DMA: Product Stewardship	Not applicable	
G4-EN2: The percentage of recycled input materials used to manufacture the organization’s primary products and services.	Operations, pages 42–45	Percentage of recycled input materials used to manufacture the organization’s primary products and services	The information is currently unavailable. We do not collect enterprise-wide data on our recycled input materials used in manufacturing our primary products. We plan to track this through a data collection system in future years.
PRODUCTS AND SERVICES			
Disclosure on Management Approach	DMA: Product Stewardship		
G4-EN27: Extent of impact mitigation of environmental impacts of products and services.	Operations, pages 42–45 Product Stewardship — Our Approach, pages 30–31		
SUPPLIER ENVIRONMENTAL ASSESSMENT

LABOR PRACTICES AND DECENT WORK			
EMPLOYMENT			
Disclosure on Management Approach	DMA: Talent		
G4-LA1: Total number and rates of new employee hires and employee turnover by age group, gender, and region.	Employees — Global Workforce, page 46 Employees — Data Summary, pages 49–51		
G4-LA2: Benefits provided to full-time employees that are not provided to temporary or part-time employees, by significant locations of operation.	Employees — Employee Compensation, page 48		
TRAINING AND EDUCATION			
Disclosure on Management Approach	DMA: Talent		
G4-LA9: Average hours of training per year per employee by gender, and by employee category.	Employees — Investing in Our Workforce, page 46	Training by employee category	The information is currently unavailable. We do not currently measure average hours of training per employee and do not have a stated goal for the average number of hours training per employee. Given industry trends for learning through experience and micro learning that occurs through internally and externally available development sources, time invested in development is broader than just formal training and education tracked through Learning Management Systems. Medtronic believes that learning occurs through Experiences (e.g. On the Job), Exposure, and Education opportunities.

LOCAL COMMUNITIES			
Disclosure on Management Approach	DMAs: Access, Financial Strength, Philanthropy		
G4-SO1: Percentage of operations with implemented local community engagement, impact assessments, and development programs.	Economic Contributions to Society, pages 10–18 Access — Economic Value, pages 21–22 Access — Globalization, pages 22–24	Percentage of operations with implemented local community engagement, impact assessments, and development programs	The information is currently unavailable. At this time, we do not quantify local community engagement activities as a percentage of operations and do not have plans to do so. Our products and therapies are available to patients all over the world. Our efforts to increase access through business and philanthropy are global. In addition, our philanthropic activities focus on the 72 communities where we have the largest employee presence, as well as medically underserved communities where we believe we can reduce barriers to care. We collaborate with local governments, health systems, companies, and nonprofit organizations to assess local needs and develop locally appropriate healthcare solutions.
ANTI-CORRUPTION			
Disclosure on Management Approach	DMA: Ethics in Sales and Marketing		
G4-SO4: Communication and training on anti-corruption policies and procedures.	Ethics in Sales and Marketing — Ethical Business Conduct, pages 35–37 Governance and Engagement — Ethical Workplace, pages 39–40

PRODUCT RESPONSIBILITY			
CUSTOMER HEALTH AND SAFETY			
G4-PR2: Total number of incidents of non-compliance with regulations and voluntary codes concerning health and safety impacts of products and services during their lifecycle, by type of outcomes.	Product Quality — Responsibility and Quality, pages 25–26 Product Quality — Maintaining Quality Facilities, page 26 Product Quality — Product Use and Performance, pages 26–27		
PRODUCT AND SERVICE LABELING			
Disclosure on Management Approach	DMA: Product Quality		
G4-PR4: Total number of incidents of noncompliance with regulations and voluntary codes concerning product and service information and labeling, by type of outcomes.	In FY2016, we had 12 field actions related to product labeling. Medtronic is committed to resolving all regulatory action and field corrective action issues swiftly and effectively. When field corrective actions occur, our expertise in quality management enables us to implement the required program efficiently. We take all necessary steps to correct or remedy the root cause of any problems that occur, and have systems in place to prevent future field corrective actions.		
MARKETING COMMUNICATIONS			
Disclosure on Management Approach	DMA: Ethics in Sales and Marketing		
G4-PR7: Total number of incidents of noncompliance with regulations and voluntary codes concerning marketing communications, including advertising, promotion, and sponsorship by type of outcomes.	Ethics in Sales and Marketing — Ethical Business Conduct, pages 35–37

SUSTAINABILITY ACCOUNTING STANDARDS BOARD (SASB) INDEX: MEDICAL EQUIPMENT AND SUPPLIES

Page numbers correspond to the [2016 Integrated Performance Report](#)

PRODUCT SAFETY		
SASB CODE	METRIC	RESPONSE
HC0201-01	List of products recalled.	Reported in Product Quality > Product Use and Performance > Product-Related Regulatory Actions, page 27
HC0201-02	List of products listed in the FDA's MedWatch Safety Alerts for Human Medical Products (Medical Devices) database.	Reported in Product Quality > Product Use and Performance > Product-Related Regulatory Actions, page 27 FDA's MedWatch Safety Alerts for Human Medical Products database
ETHICAL MARKETING		
SASB CODE	METRIC	RESPONSE
HC0201-04	Description of legal and regulatory fines and settlements associated with false marketing claims, including Federal Food, Drug, and Cosmetic Act violations for off-label marketing prosecuted under the False Claims Act. Dollar amount of fines and settlements, and a description of corrective actions implemented in response to events.	Partially reported in Ethics in Sales and Marketing > Ethical Business Conduct > Responsible Marketing to Customers and Patients, page 36
HC0201-05	Description of code of ethics governing promotion of off-label use of products, including mechanisms to ensure compliance.	Reported in Ethics in Sales and Marketing > Ethical Business Conduct, pages 35–37 Governance and Engagement > Ethical Workplace, pages 39–40
AFFORDABILITY AND FAIR PRICING		
SASB CODE	METRIC	RESPONSE
HC0201-06	Ratio of weighted average rate of net price increases (for all products) to the annual increase in the U.S. Consumer Price Index.	Not reported
HC0201-07	Description of how price information (such as average and median) for each product is disclosed to customers or their agents (e.g., group purchasing organizations or consultants).	Partially reported in Access > Economic Value, pages 21–22
ENERGY, WATER, AND WASTE EFFICIENCY		
SASB CODE	METRIC	RESPONSE
HC0201-08	Total annual energy consumed (gigajoules) and percentage renewable (e.g., wind, biomass, solar).	Partially reported in Operations > Energy Use and GHG Emissions, pages 43–44
HC0201-09	Total water withdrawals and percentage from water-stressed regions — High or Extremely High Baseline Water Stress as defined by the WRI Water Risk Atlas; percentage of process water recycled.	Partially reported in Operations > Water, page 45
HC0201-10	Amount of waste (metric tons); percentage that is recycled, incinerated, and landfilled.	Partially reported in Operations > Managing Waste, pages 44–45

PRODUCT DESIGN AND LIFECYCLE MANAGEMENT

SASB CODE	METRIC	RESPONSE
HC0201-11	Description of environmental and human health considerations made at product lifecycle stages such as design, procurement, manufacturing, distribution, use, and end-of-life, and the type and percentage of products to which efforts apply.	Partially reported in Product Stewardship > Our Approach, pages 30–31
HC0201-12	Description of Extended Producer Responsibility (EPR) initiatives to promote manufacturer take-back, reuse, or proper safe disposal at the end of the lifecycle. Amount (by weight) of products accepted for take-back and reused, recycled, or donated, broken down by: (1) devices and equipment and (2) supplies.	Partially reported in Product Stewardship > Our Approach, pages 30–31

CORRUPTION AND BRIBERY

SASB CODE	METRIC	RESPONSE
HC0201-13	Description of legal and regulatory fines and settlements associated with bribery, corruption, or unethical business practices, including violations of the Foreign Corrupt Practices Act and those associated with providing kickbacks to physicians. Dollar amount of fines and settlements, and a description of corrective actions implemented in response to events.	Reported in Ethics in Sales and Marketing > Ethical Business Conduct > Countering Corruption, pages 35–36
HC0201-14	Description of code of ethics governing interactions with healthcare professionals, including mechanisms to ensure employee compliance.	Reported in Ethics in Sales and Marketing > Ethical Business Conduct, pages 35–37 Governance and Engagement > Ethical Workplace, pages 39–40

MANUFACTURING AND SUPPLY CHAIN QUALITY MANAGEMENT

SASB CODE	METRIC	RESPONSE
HC0201-15	Number and type of FDA enforcement actions taken in response to violations of current good manufacturing practices (cGMP), including product deemed adulterated, form 483s, suggested recall (Class I, II, III), Warning Letters, Border Alerts, license suspension or revocation, product seizure, Consent Decrees, criminal prosecution.	Partially reported in Product Quality > Product Use and Performance > Product-Related Regulatory Actions, page 27
HC0201-16	Percentage of facilities and Tier I suppliers participating in third-party audit programs for integrity of supply chain and products (e.g., materials, devices, packaging, etc.).	Partially reported in Responsible Sourcing, pages 32–34
HC0201-17	Description of efforts to maintain traceability within the distribution chain, particularly with respect to wholesalers, re-packagers, and/or contract distributors.	Partially reported in Responsible Sourcing, pages 32–34
HC0201-18	Discussion of any existing or projected risks or constraints with obtaining raw materials (or components) within the supply chain, including those related to restricted/limited availability, political situations, local labor conditions, natural disasters, climate change, or regulations.	Not reported
